Demystifying seminar Norway

Program/Agenda

- 13:30 – 13:45 Welcome and introduction | Erik Hagen (DigDir), Emil Wingstedt (Smart Innovation Norway)
-
- 13:45 – 14:15 EBSI Overview and Insights – Background, Outlook, and Use Cases | Daniel Du Seuil (Research Coordinator of the Cyber3Lab Research Group of the Howest University of Applied Sciences)
-
- 14:15 – 14:35 EBSI from the SSI perspective | Roman Vitenberg (University of Oslo, Blockchain-UiO)
-
- 14:35 – 14:55 Norwegian Use Case: Seafood Trace&Track | Mohd Sameen Chishti (NTNU – Norwegian University of Science and Technology)
-
- 14:55 – 15:20 A Larger View on EBSI for Trace&Track | Steffen Schwalm (msg systems ag)
-
- 15:20 – 15:40 Panel Discussion | Roman Vitenberg (University of Oslo), Frank Fardal (DigDir), Daniël Du Seuil (Howest University), Steffen Schwalm (msg systems ag)
-
- 15:40 – 15:45 Closing Remarks | Smart Innovation Norway
-

ESBI-NE

INTRODUCTION

European Blockchain Services Infrastructure – Nodes Expansion (EBSI-NE) is a multinational consortium, lead by the Spanish Ministry of Economic Affairs and Digital Transformation and conformed by **24 organizations** from **14 countries**.

The aim of the consortium is the development and adaption of the **European Blockchain Services Infrastructure (EBSI)** network at the European level, by increasing the number of validator nodes in the production network and the provision of support for all relevant EBSI stakeholders.

The work of the consortium will be carried out during a **two-year period** (2023-2025) and will deploy **18 EBSI nodes** into production phase
